Hop Varieties: Cascade

OG: 18.4^oP

ABV: 7.6%

IBU: 64

Description:

A strong American Style Brown Ale.

Rich and malty, this brown ale has hints of brown sugar and rum. These flavors are a result of the addition of 30 pounds of Dark Muscovado Sugar to the brew kettle.

Muscovado sugar (also called Barbados or moist sugar) : a British specialty brown sugar, is very dark brown and has a particularly strong molasses flavor. The crystals are slightly coarser and stickier in texture than "regular" brown sugar.

Light and Dark brown Muscovado sugars contain molasses; the darker the color is, the more molasses and therefore the stronger the flavor. They are used in the same way as light and dark brown soft sugars.
