Hop Varieties: 100% Styrian Golding

OG: 13^oP

ABV: 5.25%

Description:

APPEARANCE: Lighter in color than our B.Town Brown. Probably closer to Newcastle Brown Ale.

AROMA: Complex malty sweetness w/ hints of caramel and mild smokiness.

FLAVOR: Medium to light texture with hints of smokiness from use of ~ 3% Briess cherrywood smoked malt. More nutty than caramel flavors.

This beer, being lighter in body and alcohol, is something of a SESSION ale : capable of offering the consumer full flavor w/o the consequences of more alcohol.
