Appearance: Reddish brown

Aroma: Medium malt aroma with a low to moderately strong caramel component.

Flavor: Medium-full body. Somewhat strong caramelly malt sweetness. Low levels of secondary malt flavors (e.g., nutty, biscuity).

History: In England today, “ESB” is a brand unique to Fullers; in America, the name has been co-opted to describe a malty, bitter, reddish, standard-strength (for the US) English-type ale.

Name: Named after Erskine Way SW, a street just to the south and west of our West Seattle pub. And we just liked the way the words sounded together!
